**RELATED COURSEWORK:**

I have written three IRB's that were approved by San Francisco State University's Human Subject's Committee.

- The effects of patellofemoral strapping on gait.
- Kinematic analysis of sit to stand.
- Online Kinesiology: Using The Community of Inquiry Framework to Enhance Students' Learning Experiences.

I converted my department's Health and Wellness course to an online format using the CoI Framework, and co-taught the class for one year to help the instructor become familiar with the online learning best practices.
